cargo van

eSUPRO

eSupro Cargo Van

India's first electric closed body van, built for the modern city. It is a future-ready battery powered cargo van with direct drive transmission. Ideal for e-commerce, courier services and transportation of high value goods safely in a closed body construction.

Spacious and Flexible

With a loading bay measuring 6 ft (L) X 4 ft (W) the eSupro has a loading volume of 2330 litres making it the most spacious cargo van in India. The intelligent loading bay design makes the eSupro ideal for carrying a variety of loads in all shapes and sizes.

Big Payloads

The eSupro has a payload capacity of up to 600 kg, which helps in carrying large quantities at one go. Coupled with low running-cost and zero-emission advantage of electric motor, the eSupro is truly practical and eco-friendly.

Benefits of eSupro Range

Modern Frontal Design

The modern frontal design in the eSupro will make heads turn by giving it a distinctive road presence.

Spacious & Comfortable Seating

eSupro offers best in class seating space & legroom, making your drive even more comfortable and relaxing.

Zero On Emissions

The eSupro van is a battery powered electric van, which makes it emission free and eco-friendly.

Direct Drive Transmission

Direct drive transmission with a single speed gearbox and sophisticated speed management of the motor allows you to cruise through traffic effortlessly without shifting gears.

Easy charging

Charging the eSupro is as simple as charging your mobile phone. Just plug it into a 15 amp plug point and get a 0-100% charge in just 8 hours 30 mins*.

Electric Drive Motor

Optimal balance of 25 kW power and 90 Nm torque makes your drive smooth and enables the eSupro to achieve a top speed of 60 kmph. The cargo van and passenger van have a range of 115* kms and 112* kms respectively.

Regenerative Braking

This revolutionary technology charges eSupro's battery every time its brakes are applied, helping the van literally recover the energy it dispenses.

Unique Instrument Cluster

Stylish instrument cluster provides important information such as: State of Charge (Battery %), Distance to Empty (DTE), Speed, Gear Engaged, Total Running and E-gen efficiency.

Lithium Ion Batteries

The eSupro comes with a 72 V battery pack of long-life, maintenance-free lithium-ion batteries.

Boost Mode

Provides the eSupro with additional power to handle steep inclines with ease.

Revive®

Emergency feature gives 7 kms of extra range once you are out of charge to reach the nearest charging point.

*As per standard test conditions as certified by VRDe.

eSupro Van

India's first 10-seater electric van.

The battery powered electric van is emission-free and eco-friendly. It has ample space for 10 passengers to travel comfortably along with their luggage. In addition, the well cushioned seats and low noise levels make every drive a smooth one. It is ideal for corporate parks, residential campuses, travelling in and around heritage sites, luxury hotels and wherever environmental well-being is essential.

Advancement of technology has enabled us to combat pollution in multiple ways. Now we have greener and cleaner alternatives for the well-being of our environment and health.

Mahindra brings you **eSupro**, a stylish & spacious van which is a whole new concept in cargo transportation and people movement. It is an advanced electric van that brings emissions down to zero, absolute zero. The **eSupro** van with zero emissions has many other advantages. Take a quick glance and you'll see for yourself.

eSupro comes in 2 first of its kind variants: A spacious and secure cargo van and a stylish, comfortable 10-seater passenger van.
